COST 539 Action - ELENA

**WORKSHOP
FABRICATION, PROPERTIES & APPLICATIONS
OF ELECTROCERAMIC NANOSTRUCTURES**

Genoa, June 26th-28th, 2008

Courtesy Adina Hufanu

Dear Colleagues and Friends,

On behalf of the Chairperson Prof. Biljana Stojanović and the Management Committee of the Action we wish to invite everyone interested in the Workshop subject to participate to the Meeting which will be held in Genoa, Italy, June 26th-28th, 2008.

The plenary lectures will be given by Prof. J. Scott and Prof. D.Hesse. The invited lecturers will be M.Algueiró, M.D.Glinchuk, B.Hilczer, M.Kosec, L.Mitoşeriu, V.Petkov, N.Setter, M.Tjunina, M.K.van Bael, J.A.Varela.

People interested in presenting oral communications (20 min) and posters are encouraged to send immediately the title of their presentation. Due to the limited time, later contributions will be shifted to the poster session.

For organisation reasons related to the publication of Workshop Proceedings, the participants are kindly requested to send an extended abstract of their presentation (1 page, see enclosed template) no later than March 31st, 2008. To whom may be interested, the publication of their presentation in the new Journal "Processing and Application of Ceramics", edited by our colleague V.Srdić and by J. Ranogajec is also possible. The manuscript has to be delivered at the Workshop.

No admission fees are required for the participation.

The reimbursement of travelling and stay expenses will follow the current COST rules (<http://cost.esf.org>).

The participants will receive a preliminary programme and the venue information within the first week of April 2008.

See you in Genoa

Paolo Nanni and Vincenzo Buscaglia
